Properties

Assembly winter glove in goatskin leather with a full index finger and fingertip reinforcements. Upper hand in cotton. Winter lined with a supple fleece lining. Suitable for simple welding tasks. An elastic seam at the wrist for a better fit. Goatskin leather is a very flexible and durable material. The glove is an excellent choice for all types of outdoor jobs.

Material information

The gloves are sewn in Goatskin, Cotton, Fleece.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
